

April 27, 2009

Dear Friends,

The Larry H. Miller family has been approached by Paul Swenson, owner of Colonial Flag Company and friend of the family, for permission to build a tribute monument to the memory of Larry. The proposed site is the south east corner of the Energy Solutions Arena property near the statues of John and Karl. Other sites may be considered.

He has suggested that a memorial where people could come and remember Larry and the many things he has done for the community would be beneficial in helping others remember what he stood for and see that they, too, can be a benefit to their community through hard work, dedication to correct principles and love for the people.

Paul will direct all aspects of the project and has contacted Monument Arts, who has a solid track record of designing and building such monuments both in Utah and out of state, to be the artist for this memorial.

The purpose of this letter is to confirm that Paul has our permission to proceed with this project and that we appreciate his most generous offer to see that Larry's memory will live on for many years to come through this memorial. We are grateful that others, seeing Paul's desire to construct this monument, will also step forward to help honor Larry.

Most Sincerely,

Bryan Miller, representative for Gail and the Larry H. Miller Family
