Dear Friends of Larry H. Miller:

A great idea for a true friend of Utah has just been introduced to me. Let me share it with you.

Paul Swenson, owner of Colonial Flag and friend of Larry Miller, has commissioned a monument to be built to commemorate Larry Miller. Monument Arts has been commissioned to design and construct the monument which will be located on the south end of the Energy Solutions Arena Plaza.

The project is fully endorsed by the Miller Family as the only official monument for Larry. In order to get the project started, Mr. Swenson has put together an 'Advisory Team' of community leaders to help identify potential donors.

I invite you to review the printed or electronic information on this truly wonderful project.

I support this project and will see that Salt Lake County is involved in its development.

Larry has left a lasting impact for good on our state, and it is fitting that he be remembered in a lasting manner. His commitment, passion and vision as a businessman and entrepreneur is a legacy that will inspire future generations to achieve their dreams, continuing to make our state all the better for having known Larry H. Miller.

I am grateful that I can help support this tribute to Larry H. Miller.

Sincerely,

Peter M Corroon
Salt Lake County Mayor
