RE: The Larry H. Miller Tribute Monument – “Advisory Team”

Dear Friends:

The recently commissioned Larry H. Miller Tribute Monument has been officially supported and endorsed by the Miller Family. I am most grateful to them for allowing and encouraging me to pursue this project for our friend and mentor, Larry Miller.

As with any such undertaking, it requires a team of qualified individuals to make it happen. To this end, I have invited the following colleagues to assist me in contacting potential donors to the project. We have called this small group our “Advisory Team”. Their role is to reach out to individuals in the community who were especially close to Larry, to let them know about the tribute monument project and how they can participate in it.

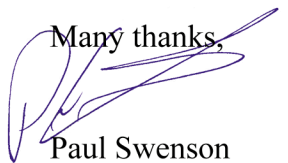

I wish to thank each person on this Team for their willingness and enthusiasm to assist me in this meaningful project. I also acknowledge their expertise and their own personal friendships with Larry. I am confident that with their help we will succeed in raising the additional funds required to make the LHM Tribute Monument a reality by our goal date of February 2010.
